

Yixing Technology

COMPANY INTRODUCTION

Yixing Metal Factory is a precision metal and plastic manufacturer with a history of over 15 years. It has grown to over 60 employees with a total area of 60000 square feet.

Service we provide: stamping mold, laser cutting, stamping, bending, deep drawing, welding, CNC milling and turning service, injection molding etc.

Material we use: steel, stainless steel, aluminum, copper, brass, galvanized steel, dual-phase stainless steel, and other composite metallic material. Processing thickness range from 0.5mm - 100mm.

Surface treatment we do: silver plating, tin plating, hot galvanizing, chrome plating, nickel plating, aluminum oxidation, powder coating, polishing, brushing, fluorocarbon coating, etc.

Certificate we can provide: CE, Reach, ROHS and FDA.

Our advantages: 10 -20 days to make sample; 5S quality control, Client-oriented and Competitive price.

Industries We Serve

3

- ✓ INDUSTRIAL EQUIPMENT
- ✓ MEDICINE & HEALTH EQUIPMENT
- ✓ AUTOMOTIVE
- ✓ SOLAR ENERGY
- ✓ AGRICULTURAL EQUIPMENT
- ✓ CONSTRUCTION
- ✓ TRANSPORTATION
- ✓ CONSUMER INDUSTRY
- ✓ MEASURE AND CONTROL EQUIPMENT
- ✓ FURNITURE AND ACCESSORIES
- ✓ SPORT AND FITNESS
- ✓ FOODINDUSTRY
- ✓ MACHINE CONSTRUCTION
- ✓ AND OTHERS

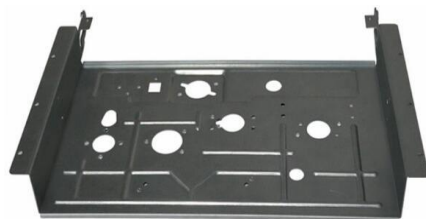

Our Customers

Process Control

17

Communicate clearly your requirements:

- Let us know the critical dimensions/specs so that we can prioritize accordingly
- Let us know usage of the product/ parts if it is not business secret. This might affect manufacturing processes and quality measures.
- If applicable, please let us know how you check for quality.
- Carefully check sample qualities before having us do mass production.
- Use formal Engineering Change Management procedures

Quality Control

18

Our common quality tests include:

- ✓ Incoming Inspection, Material chemical composition.
- ✓ Sample inspection report and conform .
- ✓ Small trial order .
- ✓ Final inspect report .
- ✓ We also use authorized 3rd-party labs for testing

Our Quality Guarantee Policy:

- ✓ We take full responsibility for product quality.
- ✓ First of all, we will do everything we can to only ship quality products to customers.
- ✓ If a quality issues is identified, we will either replace them or fully refund the customer.

State-of-the-art control equipment and well experienced QA team ensure all quality requirements.
